ICONA[®]

Superficie High-Tech
High-Tech Surface

Icona nasce dall'integrazione fra 3 componenti: carta decorativa, resina melamínica/acrílica e TNT (tessuto non tessuto), pressati fra loro attraverso un avanzato processo tecnologico che li rende inseparabili, imprimentando le tipiche venature del legno e creando un effetto materico.

Icona is the result of the integration of 3 components: decorative paper, melamine/acrylic resin and NWF (non-woven fabric), pressed together through an advanced technological process that makes them inseparable, imprinting the typical wood grain and creating a material effect.

antigraffio | scratchproof

facile da pulire | easycleaning

antimacchia | stain resistant

ecologico | ecological

antimuffa | mold proof

resistente raggi UV | UV resistant

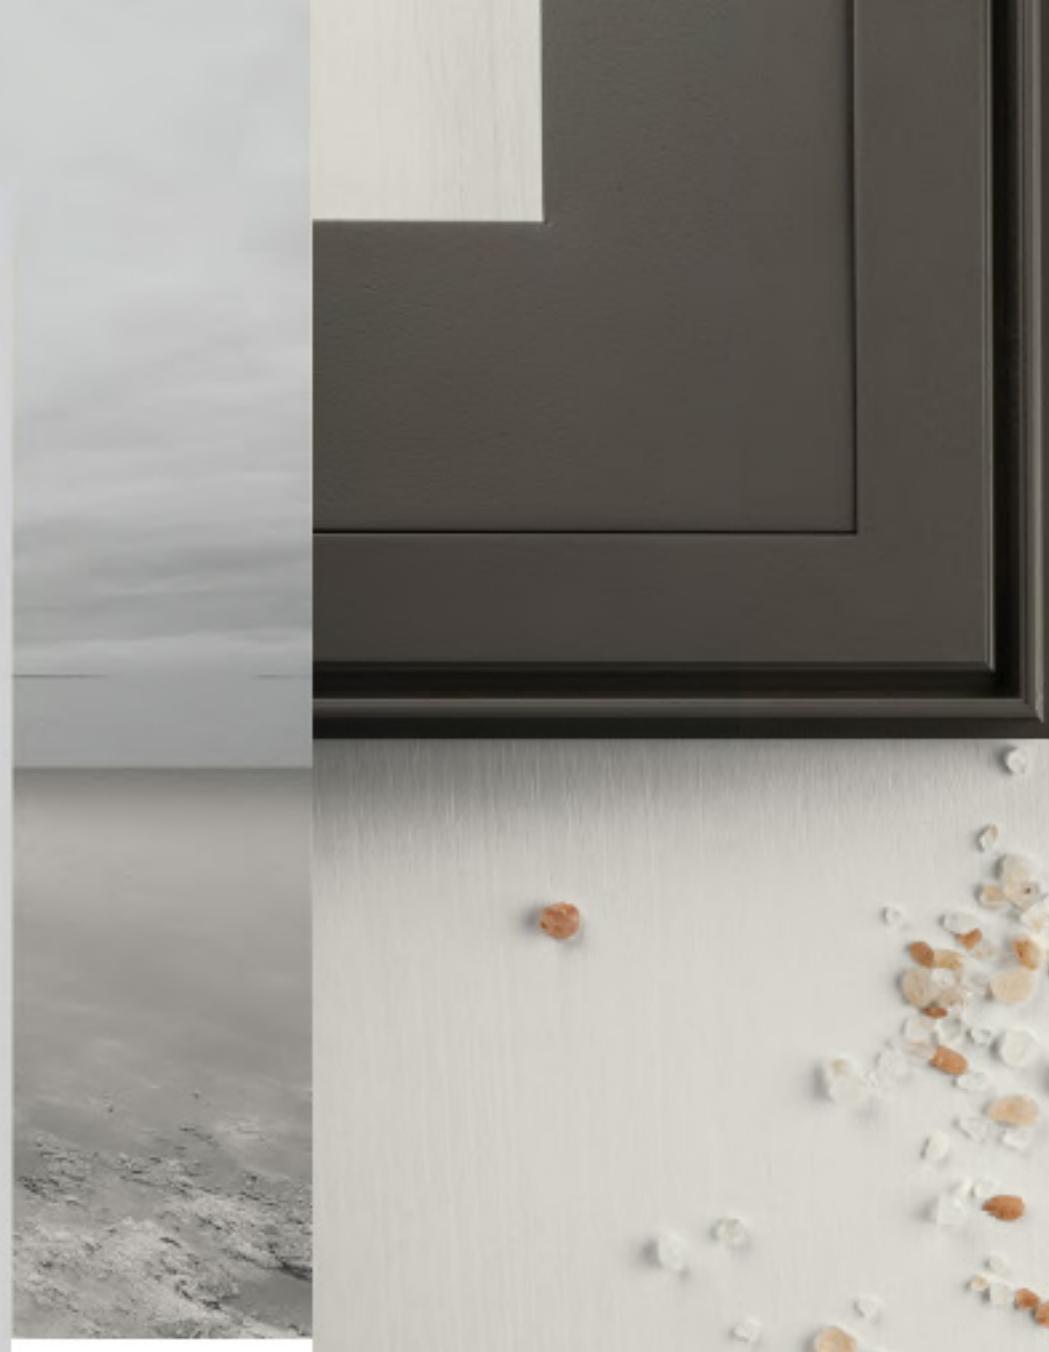

senza PVC | PVC free

senza formaldeide | formaldehyde free
